Program Summary: Our own Glenn Baldwin was today's speaker for a second try and explaining the new website for the club. Glenn told us the 2 to three hundred people are visiting the new website a day. Which is a huge increase from before. The website is now 6 weeks old and it is quite different from before. Glenn asked the club to help out by sending him stories and pictures of events and activities that our club is involved in. At the end of the program I think most of the club can now navigate the new website. Thanks Glenn!
