Last week's Program

**Hands-On Project**

**Backpack Stuffing ph 1**

Last week, we had a hands-on project: stuffing the pencil cases for our Backpack project. We had a few guests present who all helped with this! The pencil cases were customized to the grade-level needs.

Phase 2 of our project was held on Saturday at Del Cerro Mobile Home Park, involving the stuffing of the backpacks. Some of these, especially for the older grades, are really weighty! Be glad you are no longer in school lugging your backpack around.
